Brian – I just tried to call you on your cell and left voicemail. Wanted to clarify that the minerals you leased are subject to an Election Letter mailed by Whiting to both Patricia and James Reeder on August 27, 2014 with the election period expiring on October 2, 2014. Assuming you leased both parties your share of the combined cash call is \$530,032.16. If you intend to join please sign the election letters indicating so, along with the AFE and forward your check in the amount of \$530,032.16. Otherwise there is an election to sublease this acreage under terms disclosed therein.

If you elect **not to participate** in the well or fail to make a timely response to the terms of this election letter Whiting will subsequently make application to force pool the interest and assess a risk penalty in accordance with proceedings for statutory pooling pursuant to Utah Code Ann. § 40-6-5 (2009) of the Utah Oil and Gas Conservation Commission General Rules.

I am out of the office next week but you may call me on my cell (303-483-████) if you wish to discuss.

Thanks for your note below and look forward to receiving your timely election.

The terms and conditions of this Operating Agreement are acceptable to the working interest owners owning over 96% of the DSU. It is highly unlikely that we will be able to accommodate your request for revisions as this from agreement was in place at the time you acquired the interest in the DSU. An experienced operator such as yourselves surely understand that making an election to participate in a well drilling at the time of election would subject you to the terms of the operating agreement in place.

If you would like to give me a call I would be happy to go over your request for revisions.
